

Directory of GPCC support offers

We are compiling a directory of people/organisations interested in supporting the development of GP Commissioning Consortia. This is a directory of **potential** providers and will signpost people looking for development support in the areas identified below. The Directory is a signposting service only – it does not indicate any preference/choice of provider, neither does it guarantee business to any of the providers listed.

Any individual/organisation potentially offering support can be entered in the Directory. If you would like to be included please complete the following form and return it by e-mail to: Commissioning.Matters@southeastcoast.nhs.uk

Brief outline/summary (please state whether this is an area you already offer or you are interested in offering in the future)	<p>South Coast Audit is a not for profit, NHS provider of internal audit, computer audit and counter-fraud assurance and consultancy services. We are passionate about the quality of our work to support the NHS to achieve its aims. We have a strong reputation for delivering a high quality and cost-effective service. Our staff are NHS employees with a blend of public and private sector experience and qualifications. As well as a range of internal quality processes, we are proud to have held a range of external accreditations for many years and these are summarised in the later section on 'references'.</p> <p>Information Technology (IT) supports and enables effective delivery of services. Modern healthcare relies on robust IT planning and delivery to enable efficiencies and improvement.</p> <p>Our Information Technology auditors are experts in the field. They have a wide experience of auditing IT infrastructure and clinical software applications. We have the know-how to enable GPs and CCGs to plan improvements to their IT infrastructure to enable modern and effective use of IT in the delivery of healthcare and to ensure good outcomes for patients.</p>								

	<p>We can provide support and advice on all aspects of Information Technology for Clinical Commissioning Groups in any of the following formats, most of which we currently provide to our clients:</p> <ul style="list-style-type: none"> • IT Healthchecks to identify improvements in: <ul style="list-style-type: none"> ○ planning and organising the delivery of IT services; ○ ensuring patient safety in the implementation of clinical software application; ○ ensuring security of your IT Infrastructure; ○ maintaining the integrity and availability of IT systems; • Workshops for practitioners and CCG leaders, including board members, on managing the IT risk; • In depth reviews of specific IT areas to provide assurance. <p>Whichever approach you choose, our programme will complement and support the ongoing assurance and development processes being conducted by SHAs and within PCT Clusters. Our knowledge and contacts means there is no risk of duplication, and our tailor-made approach to information governance is as individual as CCGs' needs.</p> <p>We aim to be supportive and developmental to enable the CCG to operate effectively firstly in shadow form, and then as a fully authorised statutory body.</p>
Target audience(s)	Primary Care Trust Clusters and Clinical Commissioning Groups
Intended outcomes	Tailored support to CCGs to ensure future commissioners can develop into effective and authorised NHS bodies with robust and effective IT services in place that support delivery of CCG objectives and good outcomes for patients.
Length	<p>Dependent on, and tailored to, the requirements of the client.</p> <p>For example, our workshops on managing business IT risks are of half a day duration.</p> <p>The duration of a healthcheck depends on the scope and size of the organisation and usually require a minimum of three</p>

	<p>resourcing days, including reporting.</p> <p>The length of in depth reviews of specific IT areas depend on scope, which is tailored to meet client needs.</p>
Cost	<p>Using the above example of a half day workshop, including an information pack for each participant, we would anticipate a charge of £2,000.</p> <p>Cost will be tailored to meet the identified needs of the client.</p> <p>The cost of an IT Healthcheck depends on the scope and size of the organisation and start at £1,800.</p> <p>The length of in depth reviews of specific IT areas depend on scope and are based on a day rate of £450 per day.</p> <p>Note: As part of the NHS, SCA does not charge VAT to other NHS bodies.</p>
Can it be tailored?	<p>Yes. The approach is intended to be tailored to meet the needs of the client and to reflect the changing requirements and best practice guidance from the DH, BMA, Royal College of GPs and regulators as these develop.</p>
Is it publicly available? If so how frequently and where?	<p>No</p>
Previous/existing clients	<p>We currently work with most NHS bodies across South East Coast and London, and also further afield in Hampshire, Dorset and Wiltshire.</p>

We are passionate about the quality of our work to support the NHS to achieve its aims. As well as a range of internal quality processes, we are proud to have held a range of external accreditations for many years. These include:</p>

	<ul style="list-style-type: none"> • ISO 9001 Quality Standard – we have held the British Standard Institute’s quality accreditation continuously since 1994. This covers all our core processes, and involves us passing regular external audits by BSI inspectors; • Investors in People (IIP) - we have held the IIP Award since 1998 and were upgraded to ‘Bronze’ status in 2010 (making us one of only a few NHS organisations to have demonstrated more than the core IIP requirements); • ACCA – we were upgraded from “Gold” to “Platinum” Approved Employer status in 2010. The ACCA’s Approved Employer Programme is formal recognition of the learning and development support offered by leading organisations to ACCA students and members; and • External Audit Review – we routinely make our audit work available for inspection by clients’ external auditors. We also open our central procedures to triennial review by the Audit Commission. In their latest (2009) review, the Audit Commission confirmed that SCA’s central processes and procedures continue to secure compliance with the NHS Internal Audit Standards.
