

Support for Clinical Commissioning Consortia

South Coast Audit

What services do we offer?

South Coast Audit have developed a range of programmes tailored to support Primary Care Trusts and Clinical Commissioning Groups through transition. These help future commissioners to develop into effective and authorised NHS bodies, with robust and effective underpinning systems in place that support delivery of CCG objectives and good outcomes for patients.

About South Coast Audit

We provide internal audit, computer audit, counter-fraud and consultancy services to NHS bodies across the South of England on a not-for profit basis. We have a strong reputation for delivering high quality and cost-effective services for over 25 years. Our staff are NHS employees with a blend of public and private sector experiences and qualifications.

Our programmes are highly tailored to meet your needs in the areas of:

CCG Board Evaluation and Development - this uses a self assessment tool to enable you to assess what you need to do to work effectively, firstly in shadow form and then as a fully authorised statutory body.

Easy Governance for CCGs – this will help you ensure you have good governance arrangements in place to develop into an effective and authorised NHS body.

'Critical Friend' Support – working with you, we undertake an initial diagnosis and then agree a tailored format to support transition and the development of GP leaders and commissioning groups.

IT Healthchecks, Managing Risks and Securing Value – our specialist Information Technology auditors will support you to plan improvements to your IT infrastructure to enable effective use of IT in the commissioning and delivery of healthcare.

Business Continuity Management – we can support you to produce and manage robust and effective business continuity plans.

Information Governance in Practice – using our expertise in Information Systems, we will ensure you have appropriate policies and procedures in place to avoid breaches of the Data Protection Act 1998 and other relevant legislation.

Data Analysis, Computer Assisted Auditing Techniques (CAATs) – we use specially designed powerful data interrogation software to provide you with assurance on the accuracy and integrity of transactions underlying your key business processes and financial reporting.

We also offer specialist support in:

**IT Programme, Project Advice and Assurance
Conflict Resolution and Security Management
Bribery Act 2010 and Counter Fraud Training**
